At Christ Church, KS1 have begun their learning adventure this term about India. As a stunning starter and introduction to their new topic they had to find out 'What's in the Suitcase'. Children had the opportunity to pull items from the suitcase and predict what they thought they were used for and where they came from. This was very exciting and the children loved it!

The children have been reading 'The Tiger Child' by Joanna Troughton, a folk story from Orissa in India. The children have thoroughly enjoyed this topic showing great curiosity for different cultures and lifestyles. As Scientists, they have linked their science topic 'habitats' to specifically focus on Indian animals. In Geography they have compared India to Scotland, the difference in lifestyle and what it would be like to grow up in Asia compared to Europe. This week children were lucky enough to meet a lady from Pakistan to discuss Asian lifestyles, the clothes they wear and traditional celebrations. They even got to see Henna and understand the meaning behind it which caused lots of excitement. They then heard some similarities between Pakistan and India.

Year 5 have begun their learning adventure this term about Ancient Greece. As a stunning starter and introduction to their new topic they had to try 'new foods'. Children had to try the food and listen to music from Greece offering ideas of where the food may originate. Children used their knowledge of music to notice the Western style.
